INSTALLATION INSTRUCTIONS

SO24 PRO X

The minimum gap between the kitchen cabinet upper or lower panel and the appliance is $\frac{1}{8}$ ". This dimension must be added to the height listed in the drawings.

For any combinations of built-in models, please see related installation drawings.

Bertazzoni recommends to operate the appliance after it has been installed in a cabinet. The kitchen cabinets shall be made of materials capable of withstanding temperatures at least 117°F (65°C) above room temperature in order to avoid possible damage to the cabinets during oven usage. For further installation instructions refer to the installation manual.
