Experience Your Entertainment.

In the cutting-edge technology world of 4K Ultra HD TVs, Haier's 55UGX3500 is an exceptional value. 4K UHD TV's provide four times the pixels than conventional HDTV. With 3840 x 2160 pixel resolution, there is more depth and clarity than you've ever seen. Haier's 4K UHD LED TV's utilize much of the latest technology so you can take full advantage of 4K UHD content, including the latest version of HDMI that supports 4K video up to 60 frames per second. In addition, they come wrapped in sleek and slim design cabinets that you'll be proud to showcase in your home.
